MURMURED A PRAYER

As the Deadly Volts of Electricity Were Turned On.

MRS. PLACE ELECTROCUTED.

Death Was Pronounced by Doctors to Be Instantaneous.

SCENE IN THE EXECUTION ROOM

The Last Night of the Murderess Was Passed in Reading the Bible and Supplications to Almighty God — History of the Crime.

Sing Sing, N. Y., March 20.—At 11:01 a. m. Mrs. Place was executed. She made no scene.

The first shock lasted four seconds. The voltage was 1,760. It was then reduced to 200 for 56 seconds. A second shock was then given.

Mrs. Place went calmly to the chair. She leaned on Warden's Sage's arm. Her eyes were closed and she seemed neither to see, nor hear. She murmured a prayer.

Mrs. Place was calm beyond expectation. No one has walked into the death chamber as serenely as she. Death was instantaneous.

Just as she sat down in the chair she said: "God help me."

A moment or two before 11 there was shuffling of feet down the hall and the death march was ended.

Mrs. Place leaned on the warden's arm. Her face was pallid. She breathed in gasps. Her eyes were closed, but she bore herself steadily, and seemed to almost pick her way across the short space that separated her from death.

The warden, too, was pale, and the women with Mrs. Place following behind help to assist her to the chair. She sat down and said a word of prayer.

It was all over in a moment. Nothing ever was done at Sing Sing so rapidly before.

She was dressed in black, the suit that she had made herself—a plain gown, which was fitted quickly to the knee. She wore black stockings and low tan shoes.

The electrode was fastened in a moment; another was placed over thick light hair, turning gray, a small circle of which had been clipped away. The straps were adjusted over her face and a pad over the forehead. Only her mouth was visible.

Gripped a Prayer Book.

In her hand, Mrs. Place carried a prayer book, and when the shock came she gripped it tightly. The other held tightly to the chair handle. The woman's mouth merely closed; the face a trifle livid. Her heart ceased to beat within a minute.

The female attendants stood before her. The physician adjusted the electrode to her bared leg.

Not an instant was lost in throwing down the lever.

Hardly a witness saw the convulsive movements that follows an electrical shock. The body merely stiffened. The face remained calm.

Mrs. Place's thin lips closed tightly together. It was almost a smile as she died.

Twelve witnesses entered the death chamber exactly at 10:45.

With her in her room all night was Mrs. Kathryn Courtney, one of the matrons. All last night she sat beside her in a chair and never for a moment did she trust the condemned woman to herself.

Mrs. Place got up several times and looked from her window at the storm that was howling across the Hudson. Her attendant went with her; and so the cheerless night passed.

Mrs. Place's restless night, the matron, Mrs. Coulter, reported had changed her but little. She had prayed a number of times during the night, slept now and then, had watched out from her window, and early in the morning she rose seemingly without regret.

Mrs. Place left letters for several persons and made request of Rev. Dr. Cole and Mrs. Sage. The latter is asked to attend to some personal and private affairs.

The former received a letter from Mrs. Place, in which she told simply that she believed she had been given for her sins and would die with full faith in the hereafter.

History of Her Crime.

Mrs. Martha Place killed her step-daughter, Ida Place, at their home in Brooklyn, on Feb. 7, 1898. The girl was but 22 years old. A double mur-

der had been planned by the woman. She killed her stepdaughter when the girl was taking an afternoon nap, splitting her skull open with an axe, and pouring vitriol on her face and into her mouth. The same evening the woman lay in wait for her husband, William W. Place, in the darkened hallway of the house, and when he entered she struck him in the face with the axe, and inflicting a serious wound.

The motive for the woman's crime was jealousy of her stepdaughter. As long as she was housekeeper it is said she was extremely kind to Place's daughter, Ida, but she became quite a different person when Place married her.

GENERAL LAGARD

Abuses His Head For Advising Aguinaldo to Cease Hostilities.

Manilla, March 20.—It is reported on hitherto reliable authority that Aguinaldo is taking extreme measures to suppress signs calculated to cause a cessation of hostilities.

Twelve adherents of the plan of independence, residents of Manilla, have been condemned to death because they wrote, advising surrender, and all loyal Filipinos have been called upon to perform the national service of dispatching them.

On Friday last General Lagard visited Malabon for the purpose of advising Aguinaldo to quit. He argued with the insurgent leader and attempted to convince him of the folly of his persistence in the face of overwhelming odds. Aguinaldo was furious at the advice, and ordered General Lagard to be executed immediately. The unfortunate general was promptly decapitated.

The inability of the commission train to keep up with the advance led to considerable suffering; and many of the men were completely exhausted when they were recalled, and falling from the ranks were strung along for a distance of almost six miles, numbers returning to camp in the artillery ambulances, which were always close up to the lines. The work of the ambulances was especially worthy of mention. Among the dead are several who were previously reported as wounded. The casualties are as follows:

Twenty-second regiment—Captain Frank P. Jones, company E; Privates Young, Areson and Yunt of company D; Rice Pasmir, White, Ellis, Morgan, Schunder, Coupalz and Porte, company E; Edward, company K; Ronfer, company G, and Corporals Comerence and Nelson, company M. Washington volunteers, Privates Wess and Bartlett and Corporal Waters, company D, and Corporal Dricklin, company K. Oregon volunteers, Private Brown, company M. Minnesota volunteers, Private Brice, company C. All the above names are more or less seriously wounded.

THE MEXICANS

Resist Officers of Laredo, Texas, While Enforcing Smallpox Regulations.

Laredo, Tex., March 20.—Two men were killed and a captain of the State Rangers was wounded in a fight with Mexicans over smallpox here.

Reenlist Troops Ordered Out.

Washington, March 20.—As a result of telegraphic communication between Governor Sayres of Texas and the war department, Captain Ayres, commanding officer at Fort Macintosh, Laredo, Texas, received instructions to use his force in assisting the mayor of Laredo, and the sheriff of Webb county preserving peace and maintaining order until the arrival of state troops. Captain Ayres reported that he Mexicans had wounded one of the civil officers, but all was quiet now.

Beef Court Back to Chicago.

Chicago, March 20.—The government court of inquiry returned from Fort Leavenworth and resumed the examination of witnesses in the matter of canned and refrigerated beef. It is probable that the court will remain in session two or three days. The greater portion of the witnesses summoned are those suggested by Major Lee, the representative of Major General Miles before the court. His list includes seven names, among that of Dr. Nicholas Senn. In addition, Lieutenant Colonel Davis, judge advocate of the court, has a list of several persons whom he purposes calling to testify before the court takes its final departure from Chicago.

Advance in Nails.

Pittsburg, March 20.—The American Steel and Wire company has made another advance of 15 cents a keg in the price of nails. Small nails are quoted at \$2.30 a keg, or \$46 a ton. This is an advance since December of \$23 a ton.

A Bar Iron Trust.

Muncie, Ind., March 20.—A \$15,000,000 trust of the bar iron manufacturers of the country will soon be completed by George M. Baird, which will bring almost all bar iron plants under the same management.

REMAINS OF VICTIMS

Found In the Blackened Ruins of the Windsor Hotel.

RECOGNITION IS IMPOSSIBLE

A Large Force of Laborers Continue the Search For Those Who Perished in the Dreadful Holocaust at New York.

New York, March 20.—Search of the ruins of the Windsor hotel was begun by a large force of laborers.

The fire is still smoldering despite a steady pour of streams from two fire engines throughout the night. The big office safe was dug out apparently intact. Numerous small articles, such as jewelry, purses, bundles of papers, photographs and wearing apparel, which had belonged to occupants of the hotel, were also gathered up.

At 9 a. m. the charred leghone of a human body was found near the entrance burned beyond any identity. The workmen with picks and spades were called off, and others put to work, who were to use only their hands. It was felt that the bodies, if any were uncovered, would be so badly burned that identification would be almost impossible except by means of some personal belongings.

The first body found was discovered a little later by the workmen on the Forty-sixth street side of the ruins, 10 feet from the sidewalk and 20 feet from the rear of the building. The first seen of it was the skeleton of the breast, including the ribs and breastbone. Close by a foot with nearly all the flesh on it was found. It appeared to have been severed from the leg by the falling of some heavy piece of debris.

The bodies found in the ruins were examined at Bellevue morgue after being taken there in the dead wagon.

Body No. 1 is that of a man. The trunk is nearly complete, but the legs, arms and head are missing.

Body No. 2 is that of a young woman. It is in six or seven sections. A part of a brown kid glove with pearl buttons was found on one hand. The jacket is of Thibet cloth, the color of which is unrecognizable, and the skirt is of a black serge. A black cloth button on the dress is marked "Made W. and K. company, extra." In the pocket of the skirt was a cent.

DEMOCRATIC STATE CONVENTION.

At a meeting held by the Democratic State Executive Committee in the city of Lexington on March 8th, 1899, it was ordered that a State convention be held in Louisville on Wednesday, June 21st, 1899, for the purpose of nominating Democratic candidates for State officers to be voted for November 7th, 1899, the convention to be called to order at 11 o'clock a. m.

Delegates to said State convention shall be chosen at county mass-conventions to be held at the various county court houses in counties having but one legislative district, of which due notice shall be given by the various County Committees. In counties having more than one legislative district there shall be a convention for each legislative district to be held at some convenient point to be indicated by the chairman of the Legislative District Committee, who shall advertise in the local papers the location for said convention at least ten days prior to the date fixed by this committee. Said county and legislative district conventions shall be held at 2 o'clock p. m., standard time, on June 17th, 1899. Said conventions shall be called to order by the chairman of the respective County or Legislative District Committees.

The basis of representation of each county to said State convention shall be one delegate for each 200 votes and fraction of 100 or more votes cast for the head of the Democratic Elector ticket in the Presidential election in 1896, provided that each county shall have at least one delegate vote. All known Democrats and others who supported W. J. Bryan for President and those who pledge themselves to support the nominees of said State convention shall be entitled to participate in the county or legislative district conventions.

P. J. JOHNSTON, Chairman.
R. Owen Cochran, Secretary.

The general impression has gone abroad that Attorney General Taylor will be the Republican nominee for Governor next fall. A brother of Hon. John W. Lewis, of Springfield, a prominent Republican, says, "There are thousands of us who will not vote for him" and adds: "If Taylor is put up he will be the worst beaten candidate that ever ran in our State. He will be snowed under by 75,000." This is calculated to throw a damper on the aspirations of Mr. Taylor.

The facts are gradually coming out in regard to the "embalmed beef" scandal. Commissary Sergeant Mason was before the Board of Inquiry Saturday and here's what he swore to:

The meat we received was in appearance fine, but it was undoubtedly chemically treated. One morning I went down to the refrigerator car to draw meat, and I objected to the appearance of it. An agent of Armour & Co. was there. I do not know what his name was. He told me at the time that this meat had been treated with what was called preservative. It was as if it had been painted over with something like paraffin wax. There was a light coating on the outside of the meat. I objected to the color of the meat, and refused to accept it. Our commissary officer came down and he refused to accept it.

THE Indiana Legislature has passed a bill, and it is now a law, exempting mortgaged real estate to the value of \$700 from taxation. The first section reads as follows:

Sec. 1. That any person being the owner of real estate liable for taxation within the State of Indiana, and being indebted in any sum, secured by mortgage upon real estate, may have the amount of such mortgage indebtedness, not exceeding \$700, existing and unpaid upon the first day of April of any year, deducted from the assessed valuation of mortgage premises for that year, and the amount of such valuation remaining after such deduction shall have been made shall form the basis for assessment and taxation for said real estate for said year. Provided, That no deduction shall be allowed greater than one-half of such assessed valuation of said real estate.

An effort was once made to pass such a law in this State but it failed.

THE PUBLIC LIBRARY.

Congressman Pugh Selects It as a Depository of Publications of the Geological Survey.

The Maysville Public Library has been selected by Congressman Pugh as a depository of the publications of the United States Geological Survey, comprising monographs and bulletins. The library has just received the first installment consisting of 122 bulletins, twenty-five monographs and forty-seven geological atlases, illustrating the monographs. Students will find these publications very interesting, and Congressman Pugh's kindness will be duly appreciated.

Mr. W. D. Hixson, Librarian at the Public Library, is checking off the books, and persons having books belonging to the library are requested to return them at once.

RESERVED seats for the Scalchi Grand Opera Company will be on sale Wednesday morning at 9 o'clock at Nelson's.

BOARD OF TRADE.

The Horse Shoe Factory Proposition Not Satisfactory, But the Matter is Still Under Consideration.

At the meeting of the directors of the Board of Trade last evening Mr. B. J. Malone's written proposition to establish a horse shoe factory here was presented.

In consideration of a bonus of \$25,000, Mr. Malone and associates proposed to erect a factory costing \$70,000, with a capacity of 400 kegs daily and 40,000 tons of bar and guide iron.

After discussing the proposition the directors decided that they would not accept it in that shape. They also decided, however, to make a proposition to Mr. Malone that if he and his associates would agree to erect the factory in consideration of a bonus of \$2,500 a year for five years, the directors would endeavor to secure the said bonus. The Secretary was directed to acquaint Mr. Malone with the action of the Board.

The committee to secure quarters for the Board of Directors reported that a room in the Cox Building had been rented. If any public-spirited citizen wishes to donate chairs, carpet &c., for fitting up the room let him communicate with Mr. H. C. Curran.

The following new names have been added to the roll of membership of the Board of Trade since the last report was published:

HOUSEHOLD HINTS.

Flannel that has once been spoiled from bad washing will never be restored to its original beauty.

Borax is good for polishing copper, brass and silver. Dip a wet rag in the dry powder and use with plenty of elbow grease.

To clean enameled saucepans, dissolve half a teaspoonful of chloride of lime in a saucepan of water and boil till all the stain is removed.

The unsightly white marks on tables caused by standing too hot dishes upon them may be removed by the application of a little paraffin rubbed on to them with a piece of flannel. Afterward polish with alcohol.

EASTER novelties are now open at Murphy's. The most select line of novelties ever shown are now open. Call and see his new goods. Prices will sell.

THE anniversary sermon to the Oddfellows of this city will be preached by Rev. J. W. Porter at the First Baptist Church Sunday evening, April 30th.

WIN every lock bracelet purchased from Murphy, the jeweler, he will give a handsome sterling silver heart or ornament. See him before buying anything in the line of jewelry.

ALTHOUGH whisky was beaten at Washington, you will not be treated to the same dose when you go there to get 20 pounds granulated sugar for \$1 and 12 packages best coffee for \$1 at Taylor Bros.'s store.

THE Blade says when the Eighth Illinois boys passed South Portsmouth last Friday afternoon some of the troops were in a free-for-all fight. Several had been badly hurt, and had to be removed from the train at Cincinnati.

By reference to the advertisement elsewhere it will be seen that Mr. D. Hechinger, (nominally Hechinger & Co.), is to retire after a long business career. Probably no business man in Maysville is better and more widely known than Mr. Hechinger, and his friends everywhere will regret to learn of his contemplated retirement. In one way, however, the public will profit by the change, as the firm's big stock of fine spring and summer clothing, men's furnishings and footwear will be thrown on the market for cost. The retirement sale will begin April 1st, and you should take advantage of the opportunity to secure genuine bargains in clothing and footwear.

A TERRA Haute paper says a traveling man recently said to Mr. James Scudder: "I have a sure cure for dyspepsia." "Have you," said Jim. "Well, I believe that's what ails me. What is your cure?" "Just write it down," said the traveler, and Jim at once took out his pencil and book. "One ounce gum camphor," said the traveler. "One ounce gum camphor," sententiously repeated Jim as he wrote. "One five-pound axe with good hickory handle; bore a half-inch hole at upper end of handle; fill in the gum camphor and plug tightly; then chop wood with the axe till the friction of the hand upon the handle melts the gum camphor." "You go to thunder!" said Jim, in his nearest approach to swearing.

Big Tobacco Rehandling Works Shut Down.

CARROLLTON, Ky., March 19.—For a number of years M. I. Barker has been buying tobacco here on a large scale, being most of the time the representative of Liggett & Myers in Kentucky. He has here the largest establishment for the exclusive rehandling of leaf tobacco to be found in the United States. The announcement is made that the works will shut down to-morrow evening, and it casts a gloom over all this section. It is presumed that the attitude of Liggett & Myers toward the great tobacco trust—whatever their relations be—is the cause of the shutting down of this great plant.

Fresh Air Cure.

[Exchange.]

It is a matter of common knowledge that the late Sir Andrew Clarke cured himself of consumption by living as much as possible in the open air. The principle involved has since been generally recognized by the medical profession, with the result that the bad old practice of keeping consumptives in warm, stuffy rooms, has been almost entirely abandoned. It is fresh air which is mainly responsible for the cures worked at such places as Davos, where the patients spend fourteen hours a day out of doors, breathing cold, bracing mountain air, while they are exhilarated by bright sunshine. The result is that each diseased spot in the lungs is cut off from the healthy tissue by a ring of stretched cells, across which disease germs can not pass, and so the malady is arrested until the strengthened body can overcome it.

Carpetings for Spring.

We have the exclusive control here of a large manufacturer's output, embracing fully one hundred different patterns in Tapestries, Brussels, Moquettes, Velvets and Ingrain. After long and careful consideration we have adopted this method of Carpet selling for two reasons. First, we can give you a selection in point of quantity, quality and artistic designing the Cincinnati markets cannot rival, an impossibility under other conditions, as we have not the room to carry such an enormous stock as our selection line represents. Secondly, we can sell cheaper, much cheaper, than under the old method, as the factory carries our stock for us, and we need keep no reckoning of profit-clipping, remnants and unpopular patterns. Entering upon this different arrangement in our Carpet business there are three points in which we determine to excel: Private Patterns, High Grade Goods at Low Prices, Carpet Making. Think over what this means. First, you need not cover your floor with huckneyed patterns. On the contrary exclusive and fresh designs are at your disposal. Second, you need pay no more for the best than poorer grades cost elsewhere. Third, when the Carpet-Making is entrusted to us, we will have all Carpets machine-stitched; Bordered Carpets will be faultlessly mitered and sized. THE BEE HIVE

--Superb--
Spring Dress Goods

Our Dress Goods stock is now replete in every way. The shelves and counters are literally groaning with the weight of the hundreds of bolts of exquisite Dress Goods stuffs. Spring Coverts and Tailor-made Suitings, Dame Fashion's most popular fabrics, are here in great profusion. At 50c. a yard there is a forty-two-inch all wool Covert and a fifty-four-inch Suiting, worth fully 75c. a yard. They come in a dozen different shades. The prettiest of Plaids, all appropriate patterns for waists and Skirts, from 15c. to \$1.25 a yard. The very richest Crepons, all new designs, from \$1 to \$2.50 a yard. We can't tell you all the good news about our Dress Goods stock—space will not permit. Investigate, please.

Swagger ... Spring Silks...

It's by great odds the greatest Silk department in town. We are showing a line of Taffetas at 89c. that are never sold under \$1 a yard elsewhere. Not a color or shade that you can mention but what you'll find here. Our immense stock of exquisite fancy Taffetas has been much admired by worthy connoisseurs. Prices from 75c. to \$1.50 a yard. Every yard of our \$1 Black Taffeta Silks is guaranteed. Besides, you'll find here a great assortment of China Silks, made by the famous Komachi, and worth fully 65c., our price 45c. and 49c. a yard.

WINDSOR HOTEL FIRE.

Alexander B. Johnson, Brother of Mrs. Walter B. Phister, Perished in the Flames. His Wife Also Lost.

News has been received here that Mr. Alexander B. Johnson, a brother of Mrs. Walter B. Phister, of Chicago, was among the list of unfortunate people who perished in the terrible Windsor Hotel holocaust at New York last week. Mr. Johnson's wife lost her life also in the flames.

Mr. Johnson was a prominent lawyer of New York, and he and his wife had apartments at the Windsor.

FIRST SILK HAT

Worn in London Caused a Riot, and Its Owner Was Arrested.

[Exchange.]

On the wearing of the first silk hat in London an old newspaper dated January 16, 1797, gives this quaint and amusing account:

John Hetherington, haberdasher, of the Strand, was arraigned before the Lord Mayor yesterday on a charge of breach of the peace and inciting to riot, and was required to give bond in the sum of £500. It was in evidence that Mr. Hetherington, who is well connected, appeared on the public highway wearing upon his head what he called a silk hat (which was offered in evidence), a tall structure having a shiny luster and calculated to frighten timid people. As a matter of fact, the officers of the crown stated that several women fainted at the unusual sight, while children screamed, dogs yelped and a younger son of Cordwainer Thomas, who was returning from a chandler's shop, was thrown down by the crowd which had collected and had his right arm broken. For these reasons the defendant was seized by the guards and taken before the Lord Mayor. In extenuation of his crime the defendant claimed that he had not violated any law of the kingdom, but was merely exercising a right to appear in a head-dress of his own design—a right not denied to any Englishman.

PROF. BULLETT, the violinist, who rendered several selections at the Christian Church Sunday will become a resident of Maysville shortly. He is a fine musician, and his playing Sunday was greatly enjoyed.

On account of the International Sunday School convention at Atlanta April 26th-29th, the Southern Railway will sell tickets at one fare for the round trip. Tickets on sale April 25th, 26th and 27th. Return limit May 3rd.

THE Lexington Herald states that a man named Pence, of this city, was at that place Friday after his truant boy who had gone there to enlist in the regular army. The young man was not of age, however, and the recruiting officer refused to enroll him.

The funeral of the late Johnson Branch, whose death occurred Sunday night, will occur Wednesday afternoon at 3 o'clock at the residence of Mrs. Dr. Ross near Lewisburg. Rev. Hugh Searey will conduct the services. Interment in the family burying-ground.

COLONEL ALBERT E. BOONE, of Black Diamond railroad fame, addressed a large audience at the court house at Carlisle Saturday night, after which a subscription was taken up and \$2,000 subscribed. All was raised but a few dollars of what was asked of Nicholas County.

DURING the extreme cold weather in February an item was sent to the BULLETIN stating that an old woman by the name of Mrs. Lucretia Orms was frozen to death in bed at her home near Germantown. A letter received Monday from Mr. John Carpenter states there was no truth in the report, but that Mrs. Orms died of natural death. She had reached the age of ninety-seven years, and had lived with Mr. Carpenter and family for thirty years.

Shawalter Won.
NEW YORK, March 19.—Shawalter and Janowski to-day agreed to the series of five games, originally agreed upon to six, each having won two games. To-day they contested the fifth game, a Queen's gambit declined, offered by Janowski, and after 41 moves Shawalter won the game, having played fine chess throughout. Score: Shawalter, 3; Janowski, 2. The final game is to be contested to-morrow.

The Contemplated Retirement From a Long Business Career.

D. HECHINGER, nominally Hechinger & Co., are going to retire from business. In plain words are going to SELL OUT.

Fortunately for the people, this step was not contemplated until after their entire Spring stock (not less than \$40,000 worth) was purchased and is in their house.

It is needless to say a word about the class of goods that will be thrown on the market. It is a patent fact, not only in our midst, but in the commercial world, that few merchants buy the uniformly high class of goods that, Hechinger & Co. have always bought.

The Retirement Sale Will Begin April 1st.

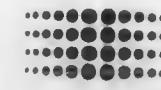

It will take until then to arrange our stock for the sale.

Every article in the house will be sold at net cost—no more nor less.

Our readers will most assuredly take advantage of this sale.

It's a Rare Occurrence

that a stock of Clothing, Men's furnishings and Men's and Boys' Footwear of such high character are thrown into a forced sale.

A GREAT TIME.

Pisgah Encampment Conferred the Golden Rule and Royal Purple on Several Candidates Last Night.

There was a large attendance at the special meeting of Pisgah Encampment No. 9, I. O. O. F., last night to witness the work in the Golden Rule and Royal Purple degrees, between sixty and seventy-five Patriarchs being present.

Five candidates received the Golden Rule degree, and six were "exalted" in the Royal Purple. They were Rev. J. W. Porter, Dr. John W. Cartmell, and Messrs. E. H. Binzel, Thomas M. Russell, Harry Walsh and Harry Richardson. It was 12 o'clock before the work was finished. The "tin-roof" degree was conferred with graphophone accompaniment.

Refreshments were served during the evening by Traxel. It is needless to add that the affair will long be remembered, by at least six of those present.

River News.

Rising here and at points above.

The Queen City for Pittsburg and Urania for Pomeroy will pass up to-night. Nisbet down.

The fight is on in the Kanawha trade. The entrance of the Avalon Monday brought the White Collar Line to the front and their swift and handsome Urania passed down just ahead of the Avalon. There are hot times ahead in river circles.

The new City of Pittsburg is carded to leave Pittsburg to-day on her initial trip. Her dimensions are as follows: Length of keel, 294 feet; length over all, 300 feet; breadth of beam, 48 feet 6 inches; width over all, 79 feet 6 inches; depth of hold, 6 feet 2 inches in lowest part; side wheels, 32 feet in diameter, 14 foot 6 inch bucket.

She has full length cabin with promenade guards all way round, 60 staterooms in main cabin, 12 on intermediate deck, 32 in Texas; total number of berths, 238; also, observation room forward of Texas; pantry and kitchen, with most improved modern outfit; barber shop, bathrooms, hot and cold water, stationary wash-stands, electric lights and call bells in each state room. Scotch marine boilers, the same as used on ocean and lake vessels. There are three of them, each of the following dimensions: 106 inches in diameter by 14 feet 6 inches long, with two furnace flues of 40 inches in diameter and 90 3/4 inch return flues. Two high pressure engines, 26 1/2 inches in diameter and 10 foot stroke.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this royal cure: "It soon removed the pain in my chest and I now can sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c. and \$1. Trial bottles free at J. J. Wood & Son's drug store. Every bottle guaranteed.

The Police Court had a larger docket than usual Monday. Charles Harp and Charles Thomas Cummings had a mix-up, and it cost Harp \$12.25. Cummings was dismissed. Jeff Clayton, Jimmie Hlasson, Joe Conglin and Ennis Travis were fined \$1 and costs for getting drunk. Florence Gallagher was taxed \$7.90 for disorderly conduct.

For the Farmer.

Sheep are even better for the poor farmer than hogs. Only small capital is needed to start a flock. The sheep with a six or seven pound fleece and a carcass weighing about a hundred pounds is the one that sells most quickly and at the highest price.—Exchange.

Kentucky would be much better off had her land-owners paid more attention to the raising of cattle and a great deal less to the production of tobacco for the last fifteen or twenty years. Timber has been destroyed, and land damaged immensely by the continuance of a crop the production of which was not a compensation for the labor expended to say nothing of the injury resulting to the lands. Live stock can be produced at a profit in Kentucky and the productive qualities of the land retained, and to that branch of farming attention ought to be turned.

Cauliflower should be in as general use as is cabbage. Its good qualities merit its general use. Would you be without cabbage from year to year? Then why without cauliflower? Do you grow salsify, the oyster plant? Try it. If you have good success and are fond of it as some are, you will not let a spring pass without planting it.

VERY ROSY.

Says M. E. Ingalls, Is the Outlook For American Railroads.

President M. E. Ingalls, of the Big Four and C. and O. railroads, told a friend in Wall street the other day that the outlook for the railroads is now better than he has seen it in his long experience.

He says that the rate agreement is being more scrupulously adhered to than ever before and that the April earnings should be enormous.

The only cloud on the horizon is the fight between the Northern Pacific and the Canadian Pacific. The "Canuck" seems determined to do everything possible to annoy and demoralize the American lines, but, strange to say, the last rate war was of advantage to the Northern Pacific system, as the low rates attracted settlers along its lines and proved to be a means of developing contiguous territory.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c. at J. J. Wood & Son's drug store.

Philadelphia, Chicago and Omaha gave very creditable intimations of the possibilities of a world's fair in this country. In 1903 St. Louis will reveal the full possibilities by their concrete materialization into the grandest exposition known to history.—St. Louis Republic.

POINTED PARAGRAPHS.

The son-in-law is often the child of sorrow.

The finger of destiny is undoubtedly on the hand of fate.

A close student of human nature never lends money to his friends.

A bachelor may have no real happiness, but he escapes a lot of real misery.

After a suspicion is once directed toward a man it is difficult to side track it.

Milton and Homer were both blind. This is conclusive evidence that out of sight isn't always out of mind.—Chicago News.

A curious remedy for sleeplessness is used by the inhabitants of the Samoan islands. They confine a snake in hollow bamboo, and the hissing sound emitted by the reptile is said to quickly induce slumber.

BITTY POINTS.

Shots Taken at Ingersoll—A Writer Who Regards Him as a Man Full of Egotism.

The reason Ingersoll won't acknowledge he had a Creator is that he will not allow that any being exists in heaven or in earth that is his superior in power or intelligence, such is his unbounded egotism.

Likely Mr. Ingersoll's antipathy to Moses had its origin in the fact that the latter was a law-giver, and the dear creature can't abide anyone who takes precedence of him in law or any other matter.

As Ingersoll gets paid for about everything he says, we suppose he will get a pretty stiff fee for relegating Mr. Bryan to the shades of obscurity?

We hardly suppose Mr. Bryan will go into retirement simply because Ingersoll says "he has had his day."

If our memory serves us correctly Ingersoll is the individual who stated some years ago that Moses had had his day; yet Moses seems to be very much in evidence still with the majority of the intelligent, thinking people of all civilized lands.

Ingersoll says that "Bryan has had his day." As the Colonel talks for money, it may be the gold power is looting the bills.

Some people spend the most of their days either in trying to invent perpetual motion or trying to find a mare's nest.

Bob Ingersoll can't divest himself of egotism long enough to be anything like a fair judge of the merits of another man.

The reason Colonel Ingersoll finds it so hard to come across a man who fills his eye is that his head is already full to overflowing with his own importance.

If the gold power cannot keep Mr. Bryan down it's the sheerest foolishness for Ingersoll to try his hand on him.

The two most critical times in a woman's life are the times which make the girl a woman, and the woman a mother. At these times, Dr. Pierce's Favorite Prescription is of incalculable value. It strengthens and invigorates the organs distinctly feminine, promotes regularity of the functions, relieves irritation and inflammation, checks unnatural, exhausting drains, and puts the whole delicate organism into perfect condition. Almost in all the ills of womankind are traceable to some form of what is known as "female complaint." There are not three cases in a hundred of woman's peculiar diseases that Dr. Pierce's Favorite Prescription will not cure.

Took His Wife's Advice.

When the man whose haircut showed that his wife had peculiar notions as to the way a man should dress his hair quit giving advice, one of the listeners said:

"No man has more respect for a woman than I have, but I shall never take the advice of my wife again about money matters. She insisted upon my hiding my salary, so if I should be held up the highwaymen wouldn't get it. I draw my stipend at 6 p. m. and it is quite dark before I get home. She is a good hider in the house, but her talent in that line stops there. Now, she had the brilliant idea that I should put the envelope containing my money under the sweatband of my hat. Highwaymen would never look there and would never rob a man of his hat. After she had made this suggestion about 40 times I accepted it. I went home as usual on the elevated. I had a slight attack of vertigo in the car, and the man who always knows what to do said I needed fresh air and threw up the window. In doing so he knocked off my hat. I went home bareheaded and broke."—New York Sun.

The Libelous "They Say."

The one term "they say" is responsible for nine-tenths of the lies which repetition and familiarity finally convert into seemingly bona fide evidence.

One usually hears an exciting bit of gossip launched forth with these words, while at the same time the speaker adroitly shields herself by declaring that personally she does not know it to be true. The man or woman who thus screens himself or herself is nothing short of a coward.—Josephine Hill in Woman's Home Companion.

Current Literature.

"You are preparing a new edition of your popular novel," said the caller.

"I am," replied the novelist.

"Well, I have a proposition by which we may both make money. Where you say, 'She glued her lips to his,' why not add, 'using Stycker's celebrated glue?'"—Philadelphia North American.

"De trouble wif some men dat knows a heap," said Uncle Eben, "is dat dey hab sech a positive way o' tellin' it dat dey makes folks too mad to listen."

COUNTY CULLINGS.

Items Picked Up by the Bulletin's Correspondents in Mason and Elsewhere.

FEARIS, LEWIS COUNTY.

Mumps are prevalent hereabouts. But few tobacco beds sown in this neighborhood up to date.

Farmers here have lost a big per cent. of their lambs. Due to the extreme weather in the past month.

The Democrats hereabouts are for J. N. Kehoe for any county or State office that he should aspire for.

There is a little grocery storekeeper up this way who posted a notice in his store warning the public that no free silver talk should be indulged in his store, as it was very distasteful to ladies and so on. The Republicans are a little premature in their intimidating. We're for Bryan and free coinage of silver at 16 to 1, free speech and every other issue that is for our present benefit or that will benefit our posterity.

LOUISVILLE TOBACCO MARKET.

Another Week of Large Sales—Prices Satisfactory in the Main.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amounted to 4,808 bbls., with receipts for the same period 3,927 bbls. Sales on our market since January 1st amount to 45,905 bbls. Sales of the crop of 1898 on our market to this date amount to 49,589 bbls.

New Burley.—We have had another week of very large sales and a market quite satisfactory in the main. The offerings have embraced a smaller percentage than usual of fine to lancy leaf, yet frequent sales have been made at prices ranging from \$12 to \$15.75. Trashes and common jugs with some show of color have been in active request at a little advance in prices over last week. The short, full-bodied red types continue firm at the satisfactory range of values which have been current for some time past. The red leaf ranging in value from \$8.50 to \$12 has shown some irregularity with a slightly lower range of values. Crop averages, including all grades, have been realized as high as \$11.50 per hundred.

Old Burley.—The offerings of old burley have been small this week and there is no change to report in the condition of the market. The stock of such goods is extremely small for the time of year.

The following quotations fairly represent our market for burley tobacco 1898 crop:
